## Language Studies

### The Greek New Testament, Cambridge Edition

Significant advances have been made in Greek translation studies since the standard text was adopted. Dirk Jongkind and Peter Williams take a rigorous philological approach to re-evaluating it, re-examining spelling and paragraph decisions, and allowing more recent discoveries about scribal habits to inform their editorial decisions. Features 10-point black-letter text, single-column paragraph format, textual apparatus, and more. 640 pages, from Crossway.
