# **REDUCE, REUSE, RECYCLE**

These 3 Rs are designed to help us all reduce the amount of waste we generate!

## **REDUCE**

Create less waste! It's the perfect way to manage waste. By making less waste in the first place, there's less to have to clean up.

## **REUSE**

Take an item that you are considering throwing away and find a new use for it. Not only is it great for the planet - but it can also be a lot of fun!

## **RECYCLE**

Recycling is perhaps the most popular of all the 3Rs. Recycling means taking an old product and turning it into a new one so that it can be sold again!
