

SATIN POLYESTER BANNER CARE INSTRUCTIONS

Please take note of the following tips for the care and cleaning of your Celebration Banners.

1. To extend the life and beauty of your banner, we recommend regularly dusting it with a clean, dry cloth. When not in use, it's recommended to roll the banner back on the original tube and store in the original box. Do not fold or leave uncovered.
2. If necessary, we recommend hand washing with a mild detergent. You may also machine wash separately in cold water on the lightest setting.
3. Gently remove any excess liquid and hang dry. We recommend hanging your banner over a shower curtain so the excess liquid drains into your tub and down the drain.
4. If your banner becomes wrinkled during the shipping or storing process, you may use an iron starting on the coolest setting. For best results, iron on the reverse side and gradually increase the heat setting on your iron for any deep wrinkles. Please use caution when ironing as permanent damage may result.

Thank you for choosing Celebration Banners. We trust that your new Celebration Banners banners will create an inviting environment and help enhance your worship services. We stand behind all of our products. If you have any questions or problems, please contact the retailer where you purchased your Celebration Banners banners and they will be happy to take care of you!
