

OVERVIEW

Are you ready to spark kids' creativity and transform your church into a place buzzing with excitement? Your Maker Fun Factory Ultimate *Plus Digital* Starter Kit is packed with everything you need to get started on a VBS experience where kids discover they're lovingly crafted by God.

This kit includes physical resources and samples just like the standard starter kit, but it also includes the Digital Download Access Pack. This pack includes a USB drive loaded with digital leader guides, music, videos and more. It opens up all-new ways to manage, share, and utilize your VBS content.

The Maker Fun Factory Ultimate Starter Kit *Plus Digital* allows you to deliver resources with the touch of a button. You can hand volunteers the manuals from your Starter Kit or e-mail pdf's so they can use whichever format feels most comfortable. The *Plus Digital* kit also safeguards against leaders who might lose that that ever-important Sing & Play manual at the 11th hour.
