## LAURINE SNELLING WITH KIERSTI GIRON

### Leah's Garden Series

**F**orsythia and Del have already started families. Lilac will surely follow soon. But oldest sister Larkspur Nielsen doesn't have time for such things! In *A Season of Harvest*, she's determined to keep the family homestead running and achieve their dream of starting a flower seed catalog—even if she has to do it by herself. In fact, she's so set on going it alone that when Isaac McTavish shares his feelings for her, she simply pushes him away. But is Lark truly disinterested or just protecting her heart?

Ever since his imprisonment during the Civil War, Isaac has felt uncomfortable staying in one place for very long. Haunted by memories, he was living constantly on the move when he first met the Niensens in Salton, Nebraska. As he's grown to love Lark, Isaac has gradually made the town his home. But he sometimes still disappears without explanation. These wanderings conveniently confirm Lark's belief that he—like everybody else around her—is undependable. How can Isaac convince her he's here to stay and she doesn't have to carry all her burdens alone?

Meanwhile, back in their Ohio hometown, former classmate Sam Gubberud has also been trying to get his life back in order since the war. And losing an arm doesn't make it any easier. Frightened by nearly losing her son, Sam's mother has been so overprotective since

his return that the former army officer feels smothered and treated like a helpless child. Then Lilac returns briefly to help her brother Anders reopen his general store, and she and Sam become reacquainted. Sam has been working on becoming a teacher, so when Salton suddenly finds itself in need of a new schoolmaster, Lilac mentions his name. He's soon offered the job and jumps at the chance for a new start. But is career advancement his only motivation, or is new romance blossoming?

As the Nielsen family grows, life in Salton gets better with each passing year. However, a quiet danger haunts them. Though it's rarely discussed, a violent gambler's dark threat forced the sisters to move West four years ago—and friends and family have been careful about hiding their exact location ever since. But if they want to sell their seeds by catalog, they can no longer keep their address a secret. To achieve their biggest dream, will the Niensens have to face their greatest fear? 336 pages each, softcovers from Bethany.

### Fragile Designs

Carly kept her family together despite her mom's death. When her father abandoned them and started a new family elsewhere, she raised her two sisters, living with her grandmother in Beaufort Bay, South Carolina, and dated the boy next door, Ryan. The demands of overseeing her family—and a little help from his older brother, Lucas—strangled her and Ryan's relationship. Despite her sisters' puzzling grudge against her, Carly moved on, married a cop, and now spends long hours selling antiques at flea markets.

Life is not all peachy-creamy in her marital relationship. Eric and Carly have a propensity to argue, mostly prompted by his mother's interference in their relationship. Carly feels she can't do anything right, from making him lunches to spending adequate time home. Despite their struggling marriage, Carly hopes that when Eric finds out they are expecting a baby, a few rifts between them might mend. As she arrives home intending to divulge her pregnancy, she finds Eric dead in the antique storage area behind their home.

Her husband suddenly gone, Carly picks up the pieces of her life, moves back in with her grandmother, and adjusts to motherhood. When her grandmother suggests they turn her home into a bed-and-breakfast, Carly is excited for the opportunity to work near her son. Searching through her grandmother's heirlooms

in the attic, Carly finds paperwork revealing her grandmother was adopted, has a twin sister, and has some link to a lost Fabergé egg that could be worth millions—and could endanger her family. Carly turns to her neighbor—her late husband's friend, Lucas—for help finding her grandmother's long-lost sister.

With Carly back in town, homicide detective Lucas Bennet is determined to shield his younger brother, Ryan, from the pain she caused after breaking up with him five years ago. Lucas has heard only perplexing tales about Carly's personality from his brother and Eric. But as Carly shares her secrets, he becomes entangled in solving the mystery of this artifact. When he receives a middle-of-the-night call from Carly informing him of an intruder, the mystery thickens. Is the Fabergé egg worth murdering for? Does this have anything to do with Eric's murder? Why does the Russian mafia keep coming up?

As family dynamics grow increasingly complicated and stakes heighten, can Lucas and Carly rummage through the past to find truth, ignoring their growing attachment—before danger strikes? 352 pages, softcover from Nelson.

### Lake City Heroes Series

**B**reathtaking action abounds in Eason's latest series kickoff—set in the spectacular (sometimes treacherous!) mountains of Lake City, North Carolina.

When Lainie's ex-fiancé, Adam, tried to murder her, the situation escalated so quickly that she was forced to shoot him in self-defense. He died of his injuries. That incident was 18 months ago, and even now, Lainie can hardly believe it happened. How could she have killed someone? And how could she—a capable, intelligent physician's assistant—have been so totally deceived by a charming, manipulative psychopath?

In any case, Adam is dead. And Lainie is grateful to have survived. Since that horrible day, she's determined never to be a victim again. She's learned more than she ever wanted to know about domestic violence and PTSD. But now she's eager to return to normal life. Soothed by daily routines, from prayer to coffee breaks at Señor G's general store, she finds solace in her friends, her faith, and her fast-paced career.

All in all, Lainie's making great strides—until a car accident plunges her into yet another nightmare. On a waterlogged two-lane road, her Subaru hydroplanes. Then she's rammed by a truck from behind and pushed

off the side of a mountain. Miraculously, her car is caught by trees, leaving her relatively unscathed. She dials 911, and then, while waiting for rescue, she gazes up toward the road and sees something that rattles her worse than the accident itself: *Adam*.

The man she remembers shooting in the throat. The man she *knows* is dead and buried . . . Adam is standing at the edge of the road, staring at her over the ridge. He disappears before the ambulance arrives on the scene. But after that *Double Take*, Lainie's nightmare begins anew.

As a healthcare professional, Lainie knows the brain can play tricks in high-adrenaline situations. It couldn't have actually been Adam on the road. He's dead. But then she learns that her Subaru's brand-new tires were sabotaged. And Adam begins to appear in other places. A hospital corridor. The breakroom. Always just out of reach, but closer with each encounter.

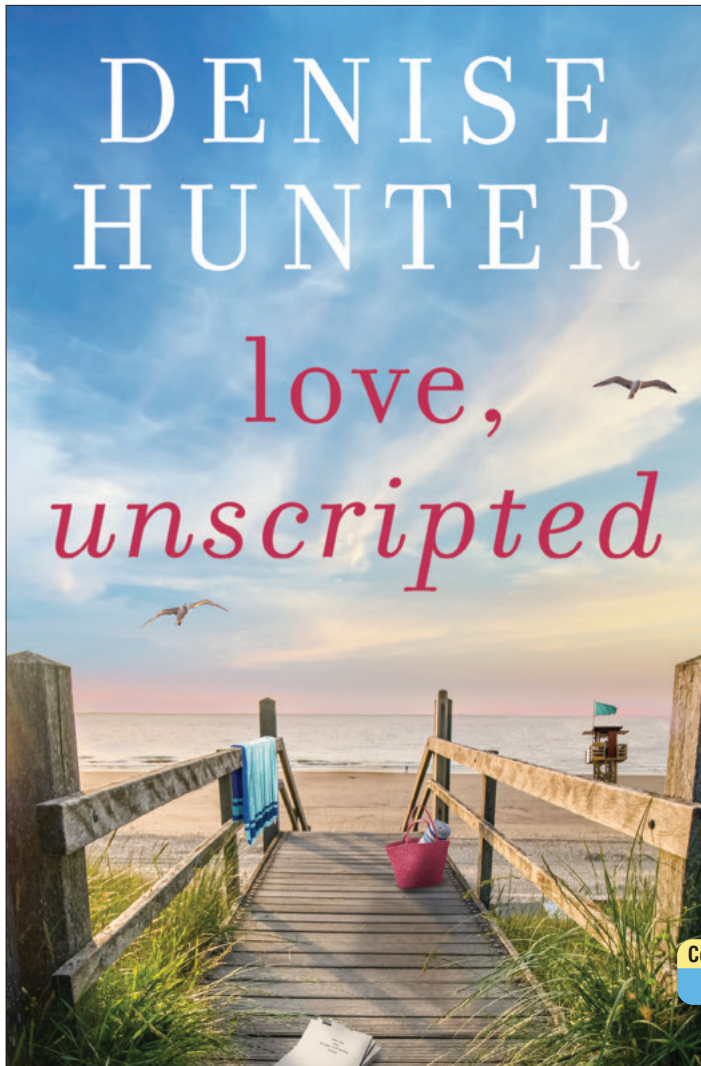

When Lainie's co-workers begin spotting Adam too, she confides in a patient who's also an old high school friend and a police officer. Can Detective James Holton figure out why someone wants Lainie dead?

An adrenaline-laced thriller sprinkled with romance! 320 pages, softcover from Baker.

### Love, Unscripted

More than loyalty it's steadfastness that Chloe needs in a relationship—or at least what her heroine needs in the book Chloe's writing. Ever since her father deserted her mom, Chloe has continued to pursue her happily-ever-after, but it's resulted in a garage full of unfulfilled hope-paraphernalia. Following a string of romantic disappointments—including a cheating boyfriend—she's longing for Prince Valiant. So she creates “the hero every woman dreams about” in her novel. The book is published, and before she knows it, her swoon-worthy male lead, Ledger, becomes a smash hit—her novel launches to a bestseller and just as expeditiously becomes a screenplay.

When popular but notorious womanizer Liam is cast for the lead role, he takes it. As a playboy who has a new woman hanging on his arm each week, he certainly doesn't reflect Chloe's male protagonist. His parents' recent divorce has left him with a philandering father who treats women like a new flavor of the month and a mother who overdrinks while holding out hope his father returns soon. Could Liam's revolving-door relationships have left him cynical about lasting love, while his mom's constancy to a lost marriage make him question commitment?

Upon learning Liam accepted the role of her “perfect man,” Chloe is appalled and promptly expresses her disdain . . . which Liam overhears on the other end of the phone. The faux pas continue. When the pair first bump into each other at a shop in her hometown, Chloe hides amid the clothes racks only to find herself face to face with him—while holding a skimpy yellow bathing suit. The media scoop up a picture and immediately suggest Chloe is Liam's latest conquest.

Liam's producers harbor concern that his bad-boy image will jeopardize his career. Deciding he needs the appearance of a solid, steady romantic attachment, they formulate a plan for him to fabricate a committed relationship with Chloe, one that will garner positive media attention. Meanwhile, Chloe's primary concern is influencing Liam's portrayal of Ledger to save the integrity of her story and increase book and movie sales. Despite their contentious start, the pair make a deal to fake a serious romance.

As Liam and Chloe work to fool the paparazzi, rehearse lines, and study Ledger's character, will the already-obvious sparks between them begin flying in another direction—aimed directly at their hearts? Could this bargain prove more trouble than either would have imagined? 352 pages, softcover from Nelson.

### Alaska Air One Rescue Series

Boo Kingston was once a beloved competitor on a reality TV show. Until she suddenly found herself betrayed by the man she loved and “canceled” by the whims of social media. Thanks to her cousin, Dodge, and her training as a navy medic, she’s begun to forge a new life working in Alaska with the team at Air One Rescue. But when country music star Oaken Fox literally stumbles into her life, it feels like her greatest fear has tracked her down.

When *Go Wild with Grizz* offers Oaken \$50,000 for Maggie’s Miracle—and some great publicity—for spending a couple days in the wilderness with former Navy Seal Mike Grizz, Oaken can’t say no. But then the legendary survivalist’s parachute malfunctions, transforming Oaken’s challenge into a completely different sort of “reality” . . . one where a blizzard is approaching, he’s forced to make impossible choices, and he races to find help in a remote wilderness full of very real danger. Thanks to either luck or providence, he finally flags down a car on a remote highway, and Boo is driving. To Oaken’s amazement, she quickly and dramatically turns the situation around.

With Mike out of action, though alive thanks to Oaken, the show’s quick-thinking, smooth-talking producer proposes a change of direction that could offer

*One Last Shot* at helping the charity and saving Air One’s shoestring budget for the foreseeable future. What if the charismatic musician “joins” the Air One team instead? And given their recent teamwork on Mike’s rescue, Boo seems the obvious choice to be Oaken’s trainer. But nobody seems to understand she’s the last person in the state who wants to appear on television.

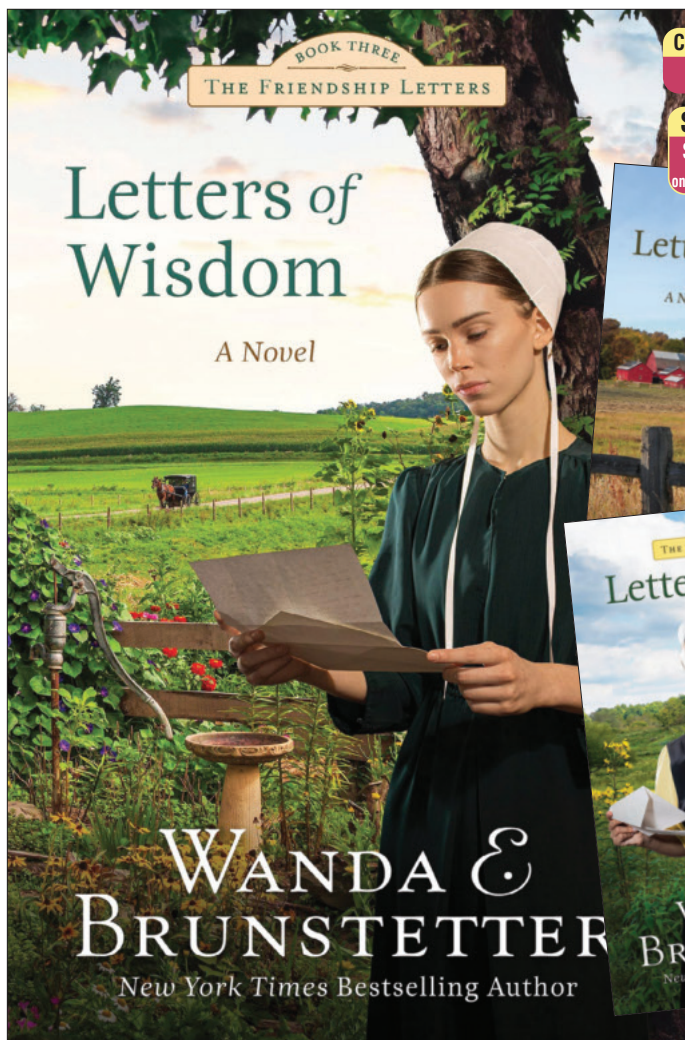

She steadfastly refuses—until he shares about a fight with a fan at a state fair and his own experience with how the internet tells half-truths it never forgets. Boo’s resolve weakens. Could she have more in common with her would-be trainee than she thought? She agrees to teach him the basics of their work, with the understanding that he’ll never put his life—or the lives of the team—in danger by joining them on an actual rescue.

Then five women go missing at a local ski resort during a bachelorette weekend gone wrong. With another blizzard closing in, the Air One team will have to use everything and everyone at their disposal, including Oaken, to find them. But will the team’s superstar recruit prove to be a true hero—or a liability? 300 pages, softcover from Revell.

## The Friendship Letters Series

**D**oretta has an open and honest way with words—and since she's always loved letter-writing, she uses her gift to support her best friends through the darkest challenges. But the latest—helping Irma overcome childhood trauma—could prove too much. Irma's past remains sealed behind the broken walls of time, and Doretta doesn't know if she can offer the lifeline Irma so desperately needs.

At 17, Irma set off on her own to escape maltreatment from her stepfather—and her mother's turning a blind eye. Irma met LaVern, they married, and they moved to Hope, Ohio. Enjoying the first years of their marriage, Irma desires to leave the past far behind, so she conceals from LaVern the mistreatment she suffered as a child. Together they create the family they dreamed of by adding three little ones. LaVern supports them by working as an auctioneer, which unfortunately takes him out of town frequently. During his absence, Irma finds herself lonely, and when her kids disobey, her anger seems to make her blood boil.

When Irma receives notification of her stepfather's death, she feels no sadness at his passing and has no desire to attend his funeral. However, LaVern, unaware of her past, persuades her to attend. Being around her half-siblings and mother again quickly causes wounds to fester as bottled-up memories and unanswered ques-

tions hound her bitterly. Why didn't her mother protect her? Was Irma's abuse caused by something she did?

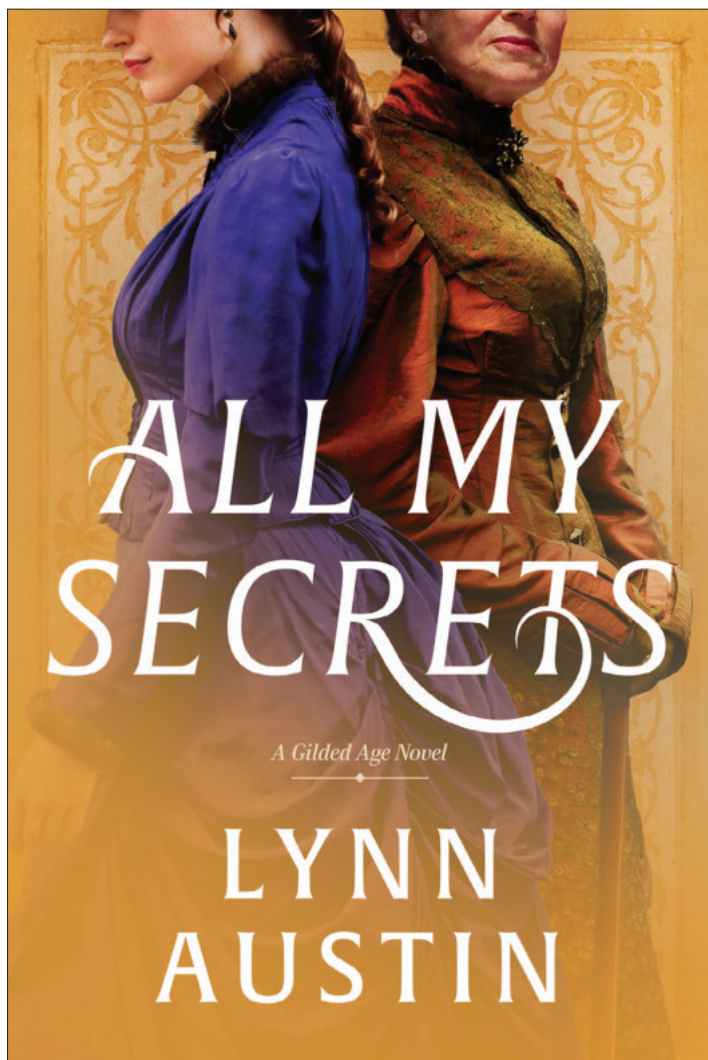

When she returns to her family, she becomes consumed with past injustices, and her anger is nearly impossible to keep at bay when she is alone with her kids. The personalities of her 6-, 4-, and 2-year-old are being affected, and sporadically she even apologizes to LaVern for her actions. Working through the trauma hangs over Irma's head constantly, and time only seems to be making matters worse. She becomes more physically abusive and even smacks her 6-year-old across the face for sassing her. While hiding her actions from her husband, Irma continues to seek counsel from Doretta, who encourages Irma to get the help she needs.

As LaVern realizes something isn't right, he struggles to know what to do. Should he send the children away to ensure their safety? The turmoil affects their relationship and is wreaking havoc on the household. Will Doretta's *Letters of Wisdom* become the balm of healing and help Irma and her family? Or is too much broken to ever be repaired? Approx. 320 pages each, softcovers from Barbour.

### All My Secrets

**A**luminous new family saga set in New York's opulent Gilded Age—an era of flower-filled ballrooms, diamond-bedecked gowns, strict social proprieties, and carefree days aboard sailing yachts. The trappings of high society in 1898 are breathtaking . . . but shadows are gathering behind closed doors.

In *All My Secrets*, newly widowed Sylvia reels after the revelation that her late husband's company—and its vast fortune—must legally pass to his nearest *male* heir. At 46, she's accustomed to reigning over Arthur Stanhope III's affairs in grand style and resting securely under his financial protection. She never imagined that her middle-aged husband would be taken so suddenly, leaving her only a modest trust fund with which to sustain the mansion they call home.

Sylvia is not the only one staggered by the prospect of change. Her softspoken, soon-to-be-debutante daughter, Adelaide, must now complete a year of mourning before she can shine as the belle of a ball. And while Adelaide's older sisters are safely and respectably married off (to a Boston Brahmin and a London Earl), Adelaide is still unattached. Not only that, she's shy—a sweet-tempered 19-year-old who must still be reminded by her mother not to trust anyone, never to show weakness, and to view other young women as

competitors. Will a gentle spirit like Adelaide have what it takes to marry well and *quickly* to save the Stanhope ladies from poverty? That's certainly what Sylvia hopes.

But there's another grand dame living under the Stanhopes' roof—and she has very different ideas. Arthur's elegant spitfire mother, Junietta, is battling heart disease and nearing the end of her life. She reads the Psalms and carries a cane, which she rarely uses as a walking stick but instead brandishes like a weapon to make salient points, or flourishes like a maestro waving a baton. The only part of Arthur's will that troubles Junietta is the clause that gives control of her life's work, the Stanhope Charity Foundation, to an irresponsible cousin who's certain to squander the resources. She can't let that happen. And she can't let her beloved grandchild, Addy, be sacrificed to a lifestyle she considers "endless rounds of social events" and "bland drivel that masquerades as conversation."

There are more important things to do. But time is ticking. Junietta *must* persuade her favorite granddaughter of a critical truth: Not all that glitters is gold. 384 pages, softcover from Tyndale.

### The Heart of Cheyenne Series

Fledgling railroad town Cheyenne, Wyoming, is a promising place for new beginnings—but it's also fraught with corruption! In *A Love Discovered*, widower Edward Vogel learns the town is recruiting family men, so a marriage of convenience to his close friend Marybeth Kruger seems the logical price of admission. But 20-year-old Marybeth is hardly your typical starry-eyed, adventure-seeking bride.

For one thing, after suffering the deaths of her mother, father, and stepmother in the space of just seven years, Marybeth is grieving and nearly penniless. For another, she has a toddler sibling in tow, her beloved half-sister, Carrie, who's not even two years old. Now Marybeth stands to lose even Carrie, as the Kruger family savings won't hold out much longer, and town busybodies are pressuring Marybeth to place the child for adoption.

Veteran law enforcement officer Edward is no stranger to grief himself. He fought with the 25th Regiment of the Indiana Infantry and nearly died at the Siege of Savannah. He lost two brothers in the war. And then his wife, Janey, died giving birth to their still-born son. Edward's life, like Marybeth's, has been one of sorrow, interrupted by only brief moments of joy. He's vowed never to marry again in the romantic sense

... but one thing's for sure: He doesn't want his friend Marybeth to suffer any more loss than she has already.

Regardless of their prospects of happiness, it becomes clear that if Marybeth and Edward are going to survive—and keep from losing Carrie—they need to join forces. The friends marry quickly at the Justice of the Peace and head west together. They're wed “in name only” but surely God will forgive that. They both only want what's best for each another, and for baby Carrie.

Cheyenne's a long way from Indiana, and Edward has an idea of some perils they may encounter there (weather, natives, rugged mountains, and desert just to name a few . . . not to mention the outlaws he'll confront as an officer of the law.) It's hard to imagine that family life will be easier in “big-sky country” than it was in Indiana. But at least it will be different. And Edward and Marybeth know they can rely on the Lord.

Can faith and friendship sustain this “couple in name only” through the challenges on their horizon? 336 pages, softcover from Bethany.

## Texas Ever After Series

After Eli “The Cattle King” Dearing wrongfully evicts a family from their home, a young man breaks into the Three Cedars Ranch during a ball to look for proof of the misdeed. He’s almost found it when he hears footsteps at the office door and is forced to flee. But while running away, he hears a boy’s desperate cry—and stops to help. After rescuing him, the burglar rushes off but in his haste leaves behind a distinctive boot.

Samantha Dearing is infuriated. The ball her father is hosting “in her honor” is just a matrimonial ambush! While taking a break outside in the garden, away from the unwanted suitors, she’s shocked to witness a thief jumping from an upstairs window and fleeing—and then see her younger brother Clint chase the man. But when Clint falls into the pond and cries for help, the criminal unexpectedly stops in his tracks and rescues the boy before resuming the escape.

Finding the lost boot, Samantha decides she’ll track down the mysteriously good-natured crook herself—and hides it before her father arrives. But as it turns out, she isn’t much of a detective. So without any better ideas, she begins watching the feet of any townsmen built like the robber she glimpsed, to deduce *If the Boot Fits*. In fact, that’s exactly what she’s doing the first time she meets hardworking cowboy Asher Ellis.

Asher’s confused by Samantha Dearing from the beginning! Stopping by the hardware store to pick up some shingles, he finds her looking *under* the shelves of the roofing aisle. Ignoring her odd behavior, he tries his best to make polite conversation. Then a few days later, Samantha, the most well-to-do young lady in the county shows up on the porch of his stepmother’s decidedly humble abode ready to tutor his younger brother. She’s not acting at all like the pampered princess he expected.

As Asher escorts Samantha home from the ongoing tutoring sessions, the two become friends. But the longer they spend together, the more Asher wishes he were as noble and trustworthy as she gives him credit for. Sharing his true self will probably end their friendship. But Asher’s conscience won’t let things go a step further until he confesses *he’s* the intruder who broke into her home and the reason her beloved brother nearly drowned. Will the truth nip this growing relationship in the bud—or allow it to blossom? 352 pages each, softcovers from Bethany.

### The Songbird of Hope Hill

After Birdie's beloved Papa died six years ago, her Aunt Sally put her arm around Birdie and offered to take her to Kansas to work in her dress shop. But when mama accused Birdie of being selfish and threw a tantrum, Birdie stayed in Tulsey, Texas—until her mama abandoned her to run away with a boyfriend, leaving Birdie completely alone. She needed fifteen dollars and eighty-five cents to buy a train ticket to get to her Aunt Sally's house, but how was she going to make such a large sum? Penniless and starving, Birdie requested bread or a bowl of soup from Miz Holland, her mama's friend. When Birdie saw that look in Miz Holland's eye, she should have run. But she didn't. Without any compassion, Miz Holland brought Birdie straight to Lida's Palace, a house of ill repute, where she slept days and worked nights.

After a week, Birdie feels dead inside. How long will it take to earn the sum she needs to get to her aunt's house? When she hears the dreaded wagon wheels coming up the hardpacked dirt driveway, she wants to hide, but this wagon holds a preacher. Pastor Isaiah Overly and his 26-year-old son, Ephraim, have come to invite the girls to Hope Hill. The pastor offers

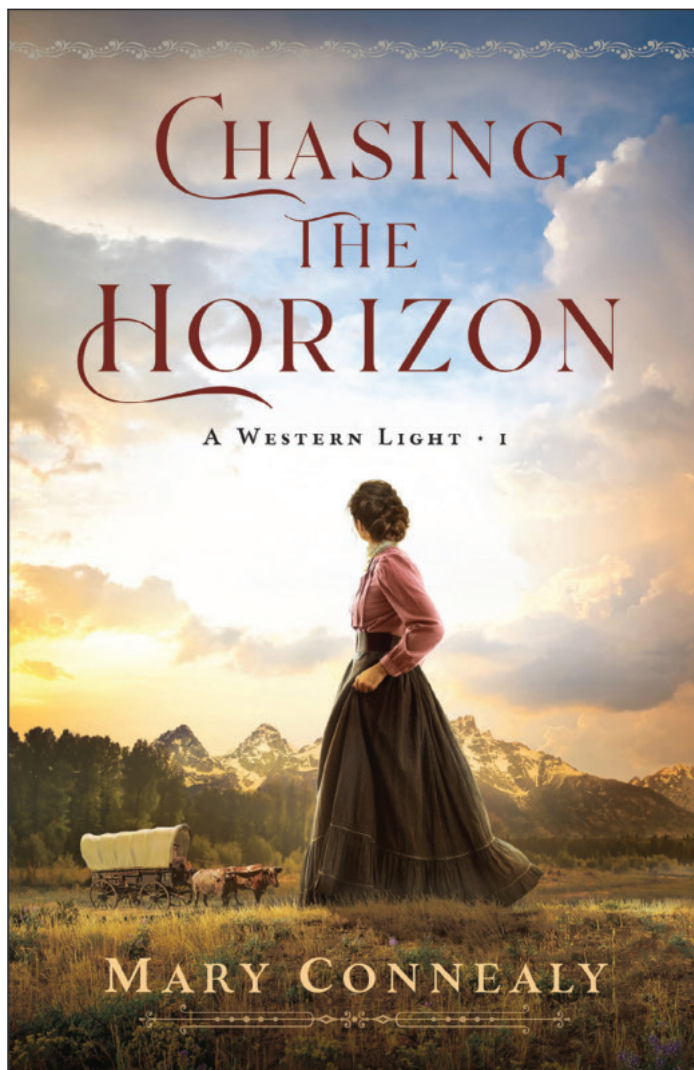

"true joy" and a different life. So, Birdie in all her frail thinness, and one blonde-haired girl, Olga, climb into the back of the revival wagon.

Soon they arrive at a two-story home with a turret pointing toward the stars—Hope Hill. It's bigger than any house Birdie grew up in, and there the girls are warmly greeted by Mrs. Overly. Though hesitant at first, Birdie soon joins the preacher at revival meetings and becomes part of the chorus. Asked to sing at funerals with Ephraim, Birdie begins to enjoy her time with him. But as Olga and Birdie adjust to the other girls, new schedules of chores, choir practice, and learning, they become keenly aware of people—even those in church and revival tents—who abhor what Pastor Overly and his family are doing.

As Birdie learns about a God who can pardon sins, she struggles to feel forgiven. When Mrs. Overly faints from a weak heart, the girls' newfound life becomes precarious. Will they be able to stay without a female to care for them? Can Birdie grasp the message of redemption? And even if she does, how could anyone ever love someone like her? 352 pages, softcover from Waterbrook.

### A Western Light Series

**B**eth Rutledge and her mother have one chance to escape Beth's tyrannical father, and it involves a wagon train *Chasing the Horizon* west. When Beth learns of her father's plot to commit her to an asylum—just as he did her mother—she constructs a plan to rescue her ma and head west by blending in with a group of pioneers. She hopes all her father's money, the popular Pinkerton agents, and a slew of private eyes will be hard pressed to track them.

In the six years since her mother's incarceration, Beth used her father's precious dollars to improve her situation—she learned an accent, cooking, and horseback riding, and secured enough funding for the trip. It was a long sought, well-planned disappearance. When she learns her father's workhand, Oscar Collins, is heading west on a caravan, Beth spots the perfect opportunity to activate her plan. After helping her mom escape, they take Oscar's sisters' names as aliases and head toward the already departed wagon train.

Watching the optimism of westward-minded settlers in search of a better life evokes hope in the heart of Jake Holt, wagon train scout. Since this is his last journey before planting roots on his Oregon homestead, Jake looks forward to this trip despite the forecasted

long hours, dangerous diseases, floods, tornados, cougars, and rattlesnakes. The 23 wagons set off with Oscar Collins bringing up the rear. Oscar's sisters hadn't arrived before the scheduled departure, so they would have to catch up.

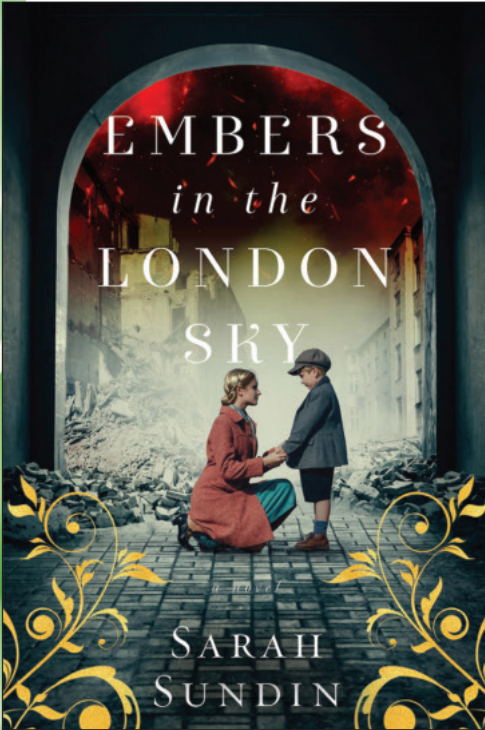

Seven days into the journey, the sisters arrive. Upon meeting Beth and seeing her hide her face behind her bonnet, Jake is sure this mysterious woman is hiding from something. But he admires her drive, strength, and willingness to learn as they progress through the Kansas wilderness. While crossing a steep-banked, shallow creek, the women climb into the wagon for protection. When the wagon loses a wheel and two people are caught in a sink hole, the women quickly give aid. But the unfortunate loss of a father crushes the spirit of the caravan.

When Jake hears rumors of Pinkerton agents looking for wanted criminals who match the description of those in his wagon train, including Beth, she begins opening up to him. As she discloses more information, it quickly becomes apparent something sinister is at hand. Can they risk trusting each other with their lives—and hearts—with danger threatening their every step? 304 pages, softcover from Bethany.

When Nazis invade the Netherlands, panicking families flood the streets. German aircraft roar overhead, strafing streets with bullets, and chaos reigns as Dutch citizens flee by car and on foot.

Caught in the exodus, young Aleida clings to her 3-year-old son, Theo. Yet the unimaginable happens. Theo is wrenched from her arms and carried away by strangers. The toddler can't speak English. Aleida now finds herself in Britain, stuck in a nightmare. Her son is presumably alive *somewhere* in England, yet she has no way of locating him. Only one man—a stranger—might possess evidence that could reunite the family. This American photographed Aleida and her child on the day of their separation—a snapshot that (unbeknownst to him) is the only existing portrait of little Theo.

Meanwhile in London, BBC radio correspondent Hugh Collingwood faces his own daunting mission: to report on the Blitz without crushing the public morale, a near-impossible assignment given Hitler's terrifying advance. But Londoners have more to fear than the Germans, as a series of murders flames up amid the ashes. . . .

When Hugh meets Aleida, he can't help being impressed, both by her beauty and ferocious tenacity. Can these two desperate strangers help each other? 400 pages, softcover from Revell.

### The Imposters Series

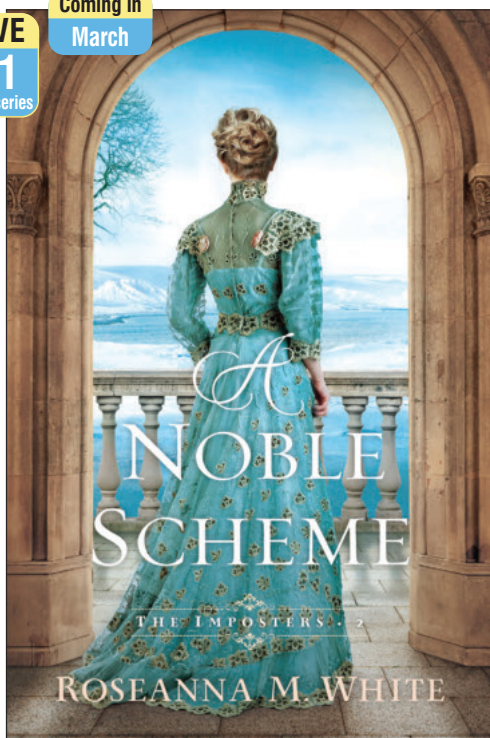

A year ago Graham Wharton broke Gemma Park's heart—and her passion for him has grown as cold as the icy wind whirling outside the December wedding of her best friend, Lady Marigold Fairfax. Known throughout the *crème de la crème* as G.M. Parker, a society columnist, Gemma would call Lady M's nuptials "the wedding of the decade" and of course mention her haute couture gown. After all, Gemma's role as a writer requires her to create alibis for Lady M and her brother Yates while they investigate dangerous unsolved cases lurking under the glittering façade of the Edwardian elite.

They're the Imposters, a private investigation team made up of Graham, an architect with a knack for finding weak spots in even the securest buildings; Marigold and Yates, aristocratic siblings with a wild upbringing and talent for eavesdropping; and Gemma, intel-gatherer and alibi-creator. Yates is soon approached by Matthew Hart, whose son Sydney is a dead ringer for his aristocratic cousin Horace—and was kidnapped in his place with an eighty-thousand-pound ransom on his head! The Imposters must work together to trace the clues, but can Graham devise *A Noble Scheme* that will save Sydney's life and win back Gemma's shattered heart? Rookie investigator Carrie Kintz is new to the Alaska Bureau of Investigation—and eager to prove her worth. But she never imagines her first crime scene will be a snowbound cabin with only one inhabitant: a murder victim identified as the mayor of Fairbanks!

Carbon monoxide poisoning is the apparent cause of death. And while that might *seem* like a tragic accident to the untrained eye, Carrie and her colleagues aren't fooled. The mayor's deluxe cabin is equipped with a state-of-the-art generator and carbon monoxide detectors . . . meaning the alarm system was hacked.

The disturbing truth is that Alaska is being taunted by a cybercriminal still at large—one who sends clues across the country in crossword puzzles, always in the 8 *Down* position. The hacker has already proven he can shut off traffic lights at will, resulting in multiple crashes and fatalities.

Given the urgency of the situation, cybersecurity expert Scott Patteson gets called in from outside. ### How to Plot a Payback

**W**hen British-born Hollywood screenwriter Finn lands his dream job on the Emmy Award-winning hit sitcom *Neighbors*, he's thrilled. The only catch? His lifelong nemesis, the insufferably cheerful and popular Lavender Rhodes, is the star.

It boggles the imagination that even here, in sunny Los Angeles, he must contend with Lavender. The same woman who's plagued him since his school days in England. Whose clueless do-gooding ways have single-handedly destroyed Finn's life—led to a broken leg (literally!); cost him priceless opportunities in the business; interfered with his relationships and dreams . . . one thing after another. It's like a curse. And here she is again—across the pond—at yet another make-or-break moment in his career. Will he never escape?

Then Finn has a wonderful realization. He's no longer a lowly assistant writer. He's now the supervising producer. Which means *he's* in charge of the script! Lavender's merely an actress. (A beautiful, ultra-talented, world-famous actress. But still!) From here on out, Finn controls the story lines. He can get the perfect revenge by spinning Lavender's character in shocking new directions! The irony is beautiful. Finally, *finally* Finn knows *How to Plot a Payback*. ### Jeopardy Falls Series

**R**aised by con artists, criminal-turned-security expert Christian Macleod has an insider's perspective on the dark side. Now he's making amends. Working as a New Mexico-based private investigator, he spends his spare time rock climbing in the gorgeous Manzano mountains and designs ingeniously impenetrable security systems for high-end clients on the side.

Christian's new career is thriving—until one of his “unbeatable” alarm systems is defeated, at an out-of-the-way elite gallery in the charming small town of Jeopardy Falls. The audacious overnight break-in results in the theft of priceless exhibits, including five ancient Mexican fire opals and four exquisite Mayan necklaces. The loss is so staggering, it literally brings gallery owner Tad Gaiman to tears.

When the Jeopardy Falls robbery proves to be the first of *two* back-to-back heists targeting Mr. Gaiman's establishments, the FBI enlists Christian's help to track down the culprits. The local sheriff introduces him to Andi Forster, the designated investigator for the museum's insurance company, and the two join forces.

Fresh from a devastating breakup, Andi can't help admiring Christian's rugged good looks. But she isn't exactly thrilled to be sharing her investigation with estranged former colleagues at the FBI, one of whom is her ex. All personal distractions are driven from her mind, however, on the day of the robbery when she discovers a threatening note pinned under the windshield wiper of her car:

*My friend, Stan, never loses at the poker table. How come?*

“I don't understand,” says Andi.

“It's an old poker riddle,” Christian explains. . . .

“I think they're saying this is a game. . . . They're inviting us to play.”

“Meaning?”

“This is just the beginning.”

“They've already hit two galleries. You're saying, you think there'll be more?”

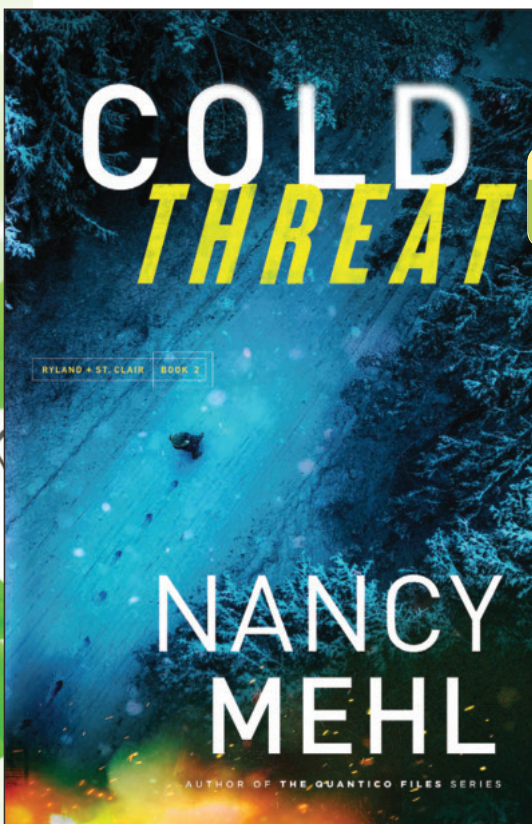

The idea that ruthless art thieves are *watching* the investigation—and even toying with them—is creepy enough. But clearly the criminals are planning more hits. And when Christian and Andi's drive to the next crime scene becomes a life-or-death chase down desert roads, it becomes clear to everyone that the stakes are frighteningly high.

Both Christian and Andi are determined to escape their checkered pasts. Christian needs to move on from mistakes, while Andi needs to resuscitate her professional career after being blamed for mishandling evidence. *One Wrong Move* could cost them everything. With an opponent bent on revenge, the pair are in a race against the clock. Will cracking this case make them—or break them? 384 pages, softcover from Bethany.

### Ryland & St. Clair Series

After narrowly escaping death at the hands of the Salt River Strangler, Tony St. Clair and River Ryland both stepped down from the FBI's behavioral analysis unit in Virginia to become private investigators in St. Louis. But in *Cold Threat*, Tony's detective father, Ray, asks them to dust off their skills to help him solve a 20-year-old crime before he retires. So they head to the small town of Burlington, Iowa.

Two decades ago, a string of people were killed in Des Moines. Their houses were set on fire to destroy all evidence. The only item left behind in each case was a snowman ornament hanging from a nearby tree. When someone was caught, tried, and put behind bars, everyone except Ray thought the killings were finished. But recently, identical murders have begun happening in Burlington. Ray believes the killer, nicknamed the Snowman, is back and might have followed Ray there because he rescued a little girl from the flames at one of the first murder scenes.

Meanwhile, at the St. Clair home, everyone does their best to keep things pleasant despite the investigation and celebrate Christmas with hot chocolate, cookies, and *It's a Wonderful Life*. But beneath the surface, turmoil swirls. Tony's younger sister, Aimee, blames River for his brush with death and confronts her about it. Afraid of jeopardizing his partnership with River,

Tony is trying to hide romantic feelings for her—and only partially succeeding. And River's struggling to understand her newfound faith. She's also trying to figure out whether her recurring nightmares are merely bad dreams or clues about the case.

Their profiling skills help the partners quickly discover key details, but the motives behind the Snowman's violence are harder to untangle. The man clearly endured some childhood trauma during the winter. The way he kills shows he finds the act itself distasteful. He uses fire because anger still burns inside him. And the victims' body positioning suggests he thinks he's delivering some kind of deserved judgment—on someone else's behalf—against people he believes are evil. But why? For whom? And how can any of this information help Tony and River uncover the Snowman's identity—or predict who he's after next?

With all evidence indicating the killer will strike again, River and Tony race to understand the motives of a madman. But with snow on its way and danger mounting, can these partners catch him before one of *them* feels the heat? 336 pages each, softcovers from Bethany.
